CORE COMPETENCIES

Strategic Finance & FP&A	M&A / Corporate Development	Forecasting & Budgeting
Business Transformation	Financial Systems & Automation	Executive & Board Reporting
Long-Range Planning	End-to-End Process Design	AI Integration & Deployment

CAREER HIGHLIGHTS

- Led enterprise-wide FP&A transformation across 35 brokerage offices and five additional business lines, reducing reporting time by 70%+, expanding financial visibility, and enabling faster, data-driven executive decisions
- Spearheaded enterprise AI integration and adoption, building financial data infrastructure and automated workflows that replaced a six-figure outsourced initiative
- Played a key role in two seven-figure strategic transactions through closing and integration, alongside extensive acquisition pipeline evaluation, due diligence, and go/no-go recommendations
- Helped rebuild and subsequently assumed ownership of two corporate finance functions, modernizing financial reporting, executive and board communication, data management, and operating processes

EXPERIENCE

New Western | *Senior Manager, Strategic Finance & Corporate Development* *May 2025 – Present*

- Lead strategic finance, corporate development, and cross-functional transformation initiatives, partnering with executive leadership to drive financial performance, operational improvements, and ongoing M&A evaluation and execution
- Built a live enterprise budgeting web application and standardized financial models across business units, integrating departmental planning with automated, ERP-ready financial data
- Designed and deployed AI-powered financial document extraction and validation using AWS, OCR, and LLM cross-checks, achieving 97–99% benchmark accuracy and saving 35+ hours weekly
- Automated treasury and accounting workflows across banking, loan-servicing, CRM, and ERP systems, saving 20+ hours weekly and developing funding optimization capabilities with six-figure annual earnings potential
- Built real-time executive dashboards spanning lending liquidity, insurance performance, institutional partner revenue, and sales performance, integrating previously fragmented financial systems
- Led enterprise AI adoption, connecting AI to financial data and KPIs, training employees across technical skill levels, and presenting transformation opportunities to executive leadership

New Western | *Manager of FP&A*

- Rebuilt company-wide financial reporting, implementing live budget-to-actual dashboards, standardized executive reporting, and automated FRP presentation production
- Supported acquisition execution and post-close integration, including diligence, restructuring, compensation redesign, and continued oversight of an acquired brokerage
- Redesigned compensation for five directors and 300–400 agents; partnered with executive leadership to align agent commissions and ancillary product attachment, increasing unit economics by 17–26%
- Helped launch an inside-sales business line, designing operating workflows, compensation structures, lead allocation, performance reporting, and an external-facing institutional partner portal

NSP | *Manager of Corporate FP&A* *September 2023 – May 2025*

- Owned corporate FP&A, including long-range planning, budgeting, forecasting, and board reporting; served as finance business partner to Europe and LATAM business units
- Developed and managed complex financial models spanning consolidated forecasting, budgeting, LRP, valuation, and headcount
- Hired and developed a team of two; oversaw planning for business units representing 50% of SG&A and 25% of revenue

NSP | *Senior FP&A Analyst*

- Helped rebuild the FP&A function, establishing foundational planning models, standardized reporting, and scalable financial processes
- Implemented GL-level planning with 150x more account-department combinations, reducing monthly actualization from 60 to 7 minutes
- Created a daily sales forecast model and allocated a monthly budget by day for 30+ domestic and international markets

Redline Clothing Co. | *Co-Owner* *April 2023 – September 2023*

- Co-founded a profitable e-commerce business, overseeing website development, fulfillment, and digital marketing

Foam | *Financial Director* *June 2022 – June 2023*

- Led all financial processes, investor communication, and operational systems for a venture-backed startup
